

MEDIUM OF INSTRUCTION:-

The medium of instruction and first language from NURSERY to XII classes is English. Languages- English, Hindi and Sanskrit are taught from VI to VIII.

PRE-SCHOOLING (KINDERGARTEN):-

Our early childhood programme emphasizes child-centric, self-directed learning and is concerned with the 'Whole Child' its intellectual progress as well as its social,, emotional, creative and physical well-being. In our early childhood programme we adopt the way as children naturally learn. They learn best in relaxed ambiances, where they can freely and recreationally explore and implore their environment with you and in a play-way method. Age for admission to NURSERY is 3 years on June 1st of the year concerned.

PRIMARY LEVEL (1 TO 5):-

The goal of the primary curriculum is to lay a strong educational foundation. The curriculum is planned to develop in the students respect and love for learning while giving them the strong basic skills.

MIDDLE AND SECONDARY LEVEL (VI to X):-

The middle school (VI to VIII) is a smooth transition from primary to high school. The syllabus include almost every subject necessary for the students. VI, VII and VIII is formed by teachers themselves on the basis of NCERT. Hence it is very flexible and needs of the child are incorporated. The students of IX and X are being prepared for an all India Level Examination, CBSE (Central Board of Secondary Education) New Delhi. We offer the students of IX and X the following subjects. English languages and literature, Hindi, History, Civics and Geography, Physics, Chemistry, Biology, Mathematics, Economics, Computer application, General Knowledge. The project work supported and extended the innate curiosity of the child and develops the attitudes and skill necessary to gain an understanding of the world around. Students learn in such an environment where their ideas are freely expressed and valued. This creates a stimulating learning situation for all.

HIGHER SECONDARY LEVEL (XI to XII):-

We offer the students of XI and XII only the science stream both BIO and MATHS for the current session, and are planning to implement the other Streams (Arts And Commerce in the coming years. Students are provided with the regular Lab Activity and the project works supported and extended the innate curiosity of the child and develops the attitudes and skill necessary to gain proper understanding not only of the subjects but also of the world around.

OUR MISSION

To develop New Era Public School into a Vibrant and an exemplary education institution where students are nurtured and encouraged to achieve their ultimate potential.

High quality standards of teaching and learning in a caring environment is the very heart of your purpose in which significant emphasis is placed on individual student achievement and the celebration of success.

STRIVING FOR EXCELLENCE IS OUR MOTTO

MISSION STATEMENT:-

We are committed be an exceptional school with a difference. The graduates of our school will be cognizant, sensitive and participative individuals, who take pride in themselves and the nation, will impact and influence a changing society with confidence and creativity.

OUR PHILOSOPHY:-

New Era Public School is committed to application-oriented learning. We believe that shaping the overall personality of the students is of paramount importance and will offer total personality development as a part of the curriculum transaction.
